

Cheshire Walkers Walks Programme: April 2014 to September 2014

<http://www.cheshirewalkers.org.uk/>

Part of North and Mid Cheshire area

Cheshire Walkers is **THE** walking group covering North & Mid Cheshire and the surrounding area.

Who are we? Formed in 1999, and originally a 20s-30s group, we are a walking group affiliated to the Ramblers and part of the North & Mid Cheshire Area. As time has moved on, we have dropped the age restriction and anybody is welcome to walk with us. In practice, most of the regulars in the group are 30s-40s.

Sunday 06 April 2014: Peak District: Kinder Scout from Hayfield

Description: The walk is the classic Kinder downfall round, starting from Hayfield takes in Edale Cross, Kinder Downfall, Williams Clough and the Snake Path. Kinder Downfall is the point where the water from the Kinder plateau cascades over the cliffs and starts its way towards the Mersey estuary. The views are extensive and cover the many miles of the Manchester and the Cheshire and Lancashire plains. The walk should be considered strenuous. Whilst the paths are well formed, they can be boggy even after a dry spell. But the walk is a classic, and well worth doing if you have not done so before.

Walk length: 12 miles

Walk grade: Strenuous

Start point: Main car park in Hayfield, at the start of the Sett Valley Trail. SK22 2PE.

Leader: David

Sunday 13 April 2014: Cheshire/Staffordshire border: The Roaches from Wincle

Description: Starting from outside the Ship Inn at Wincle, we will be walking through farmland until we reach a short sharp climb to reach the Roaches. Walking along the ridge, we then go to Lud's Church (a roofless cave) and Hanging Stone, before dropping back down to the river and the Ship Inn where welcome post walk refreshments can be purchased!

On a good day, the view from the Roaches rivals anything to be found from the Peak District. This is a long walk, but has enough contrast throughout to keep the interest levels high.

Walk length: 14 miles

Walk grade: Strenuous

Start point: Outside the Ship Inn. Parking is on the road outside the Inn (please park responsibly). Further space to park can be found at the bottom of the hill by the river if busy.

Sunday 06 July 2014: Peak District: Stoney Middleton

Description: This is a long walk, being just over 15 miles. That said, it is an opportunity to discover the wonderful variety of landscapes the Peak District has to offer. We will start by following the river Derwent, will climb the moors above Offerton Hall and return via the wonderfully picturesque villages of Foolow, Great Hucklow and the famous plague village of Eyam.

On the reccie there was the bonus of much action taking place at the gliding school at Great Hucklow – amazing to see how they actually take off!

There is one steep climb onto the moors, but other than that the walk is undulating rather than peppered with ups and downs. This, therefore, is a good opportunity for anyone who would like to try a longer walk.

This really is a beautiful part of the world. Each village seems to be prettier than the one before it, and good weather rewards with views up to Ladybower and of almost every Limestone Edge within the national park.

Walk length: 15 miles

Walk grade: Moderate

Start point: Stoney Middleton

Leader: Neil

There are fine views looking across to the hills of North Wales.
